Our know-how

CAREFUL SELECTION

Since the 1950s we have been selecting the best produce paying particular attention to the quality of the raw materials and the finished products within the European Mediterranean area – where the olive growing tradition has its roots.

ORIGIN

Our oil is not always and/or exclusively Italian but its origin changes to ensure an increasingly fresh and high quality product.

100% OLIVE JUICE

Our extra virgin olive oil is an «extra juice», i.e. it is juice obtained exclusively from 100% olives by mechanical means without the use of any chemical-physical process.

BLENDING

For decades we have been selecting the best olives to obtain a mixture of oils, the most harmonious blend that is able to enhance every dish: a clever blend of technical skills and talent; ingredients that make the blend a real work of art.

STORAGE AND PACKAGING

We want our extra virgin olive oil, as tradition dictates to be as freshly pressed as possible (i.e. obtained just a short time before) and that its characteristics are protected. To protect it from light and maintain its quality we use dark bottles, cans and TETRA PAK containers for our extra virgin olive oil.

Numbers

In 2017, ITALTIPICI accumulated a turnover of approximately **6,5 € million**
